# WATCHES

## AT WHOLESALE PRICES

**I**N this little book you will find particulars about a number of our best selling Watches. The cuts are made from photos of the Watches themselves and are exactly two-thirds the actual size. These Watches are for sale in every Jewelry Store in Canada, but you will find by careful comparison that our prices are much lower—in most cases much less than half that asked by retail dealers. The reason is simple. We sell many thousands yearly, and consequently buy much lower than the dealer getting a dozen or two at a time, and with this large output we can afford to work on a very small margin of profit on each sale. The net result is that we can sell you watches at **Wholesale Prices**—just what the retail dealer pays. Agents are making money handling our watches, as they can undersell the dealer and still have a handsome profit on each watch sold. In every instance we quote our lowest net cash price, and whether you buy one watch or fifty your order will receive the same careful and prompt attention.

*McFARLANE & CO.*
